

Esraa Elshahawy

Frontend Developer | React & React Native

esraamjdy@gmail.com | [LinkedIn](#) | github.com/esraamjdy | esraamagdyportfolio-mocha.vercel.app

Summary

Frontend Developer with 2 years of experience building production web and mobile applications using React, Next.js, TypeScript, and React Native. Skilled in creating responsive interfaces, integrating GraphQL and REST APIs, refactoring legacy code, and developing automated tests. Experienced in Agile/Scrum collaboration, code reviews, and translating product needs into maintainable engineering solutions.

Technical Skills

- **Frontend:** React, Next.js, React Native, TypeScript, JavaScript, HTML, CSS, Web Performance
- **UI & Styling:** Material UI (MUI), Tailwind CSS, SCSS, Responsive Design, Framer Motion
- **APIs & Integration:** GraphQL, Hasura, Flask, API Integration
- **Testing:** Jest, React Native Testing Library, Unit Testing, Integration Testing
- **Tools & Practices:** Git, GitHub, Docker, Agile/Scrum, Code Reviews, Refactoring
- **Programming Languages:** Python, Java, C++, SQL

Experience

Zeilenwerk | Frontend Developer

2024 - 2026

- Developed and maintained production web and mobile applications with React, Next.js, React Native, and TypeScript, delivering responsive interfaces with a focus on web performance.
- Refactored legacy applications by migrating class-based React components to functional components and JavaScript code to TypeScript, improving maintainability.
- Integrated frontend applications with REST APIs and GraphQL while collaborating in Agile/Scrum workflows and participating in code reviews.

Projects

Sabag Shelf

- Production React Native application
- Improved inventory workflows and mobile UX by refactoring React Native components, integrating TypeScript, and migrating from React Native Navigation to React Navigation.
- Developed unit and integration tests using Jest and React Native Testing Library and fixed repeated scanning behavior so only the latest scan result updates the UI.

r             | reservesuisse.ch

- Migrated application code from JavaScript to TypeScript and refactored dialog-based data fetching with React Query to improve frontend maintainability.
- Implemented DataGrid filtering, export, and date handling, charts for quotas and obligations, and workflows for users, product groups, tags, invoices, and transactions.
- Improved navigation, breadcrumbs, tooltips, accordions, and internationalization across the production portal.

helvecura

- Integrated database updates with application workflows to display base prices and improved data-heavy interfaces through DataGrid sorting, date handling, and business logic fixes.
- Implemented rich-text functionality and fixed dialog behavior, navigation, and interaction issues across production workflows.

SABAG Client Portal | [Google Play – SABAG Client Portal](#)

- Co-developed scalable product search and catalog experiences using React, TypeScript, Next.js, SCSS, and REST APIs.

HiKids | hikids.net/en

- Contributed to a responsive multilingual educational platform using Next.js, React, TypeScript, and App Router.

Personal Portfolio Website | esraamagdyportfolio-mocha.vercel.app

- Designed and developed a responsive portfolio using Next.js, React, TypeScript, and Framer Motion.

Education

Arab Open University

2020 - 2024

B.Sc., Computer Science (GPA: CGPA: 3.6 (B+))

- **Achievements:** Graduation Project: Excellent

Achievements

- **Finalist – ECPC 2024:** ranked 31st nationally.
- **Instructor & Mentor, AOU ICPC Community (2022–2024):** Delivered competitive programming training sessions.
